

8 DEC 1978

MEMORANDUM FOR: Chief, Management Assessment Staff, DDA

25X1 FROM:

[redacted]  
Communication Coordinator, OS

SUBJECT:

Submission of New Communications Support  
Requirements from FY-81 through FY-85 [redacted]

1. In compliance with your request dated 17 November 1978,  
the following new communication support requirements are antici-  
25X1 pated in FY-81 through FY-85: [redacted]

a) The Office of Security has [redacted] candidate  
buildings in the Washington area for inclusion  
in the Security Access Control System. During  
25X1 FY-81 through FY-85 the Office of Security  
plans to connect [redacted] buildings to the system.  
These connections will require a single 1800  
Baud channel between Headquarters Building  
and the individual buildings, with a twenty  
four-hour capacity.

b) In addition, the Information Security Systems  
Group, Office of Security, anticipates one  
25X1 additional terminal will be necessary in the  
[redacted] because of expanded docu-  
ment control requirements.

c) [redacted]

2. If additional information concerning the above require-  
25X1 ments is required, please contact the undersigned on extension  
[redacted]
